

Git Together (Hosted by GHCC)

Time: 3:45–6:00 PM

Overview:

A fun-filled afternoon with games, activities, and networking opportunities.

Event Rounds:

Round 1: GitHub Speed Run

- Individual, no teams, no elimination.
- Navigate between GitHub articles quickly.
- Encourages quick thinking and resourcefulness.
- All participants receive credit for their efforts.
- Serves as a warm-up to energize participants and introduce friendly competition.

Round 2: Box of Lies

- Teams are formed, and each team receives a selection of unusual items.
- Describe an item to your team, who must guess if it's true or a lie.
- May include elimination depending on the number of participants.
- Promotes engagement and ensures a fair chance for all.

Round 3: Marketing Silly Things

- Teams create marketing pitches for quirky or unconventional objects.
- Points are awarded based on creativity, humor, and presentation.
- The team with the highest score wins.
- Encourages collaboration and innovative thinking.

Youth Red Cross Society Event

Time: 9:00 AM – 12:00 PM

Venue: J 313, J 314

Event Rounds:

Round 1: Cup Stacking and Quiz

- Race against time as the quickest cup stacker to gain an advantage.
- Answer a quiz focused on first aid and blood knowledge.

Round 2: Sign Language Challenge

- Trace the given phrase to your peer using sign language.
- Earn points for correct signs while learning communication through silence.

Round 3: IPL Auction

- Form teams, strategize, and participate in an intense IPL-style auction.
- Bid for your dream players and secure the best team.

HiddenX 2024 (Capture the Flag Event)

Time: 4:30–6:30 PM

Event Overview:

An intense Capture the Flag (CTF) event focusing on social engineering and cryptography.

Challenges:

- Decode & Crack Codes: Solve cryptography puzzles to find hidden flags.
- Social Engineering: Use psychological tactics and misinformation to outmaneuver others.
- Team Dynamics: Collaborate and strategize, all while working undercover.

Scoring System:

- A leaderboard tracks team progress, but individual scores remain hidden until the end.
- Top individual performers will also be recognized.

Eligibility:

Open to all students from the CSE department. No special software required.

Code Rush (Powered by the CSE Association)

Time: 4:30 PM

Venue: AI Wing

Overview:

A coding challenge designed exclusively for 1st and 2nd-year CSE students.
